

Brooke Kirkland

Brooke Kirkland is a native of Mullins, South Carolina. She earned her Bachelors of Science in Mathematics from the University of South Carolina. Brooke returned home to begin her teaching career at Mullins High School where she taught 9th – 12th grade mathematics. After four years of teaching high school math, Brooke became the Math Interventionist at Palmetto Middle School. During her two years as math interventionist, she also developed as an instructional leader and took on additional roles that provided opportunities to support and coach math teachers, work with curriculum leaders within the school district to develop middle school math support documents and pacing guides and served on Palmetto Middle School’s Instructional Leadership Team. Brooke is currently in her first year as the Assistant Principal at Palmetto Middle School.
